STRATEGIC MISSION FOR 2006-2010

SACAU seeks to strengthen its position as the leading regional farmer organization, focusing on three key areas:

• Facilitation of capacity building support to farmer organizations in the region

• Providing a platform for the collective voice of farmers on matters of common concern

• Provision of policy related and other key agricultural information to farmer organization
STRATEGIC PRIORITIES FOR SACAU

• Core strategic agenda for SACAU:
  – Capacity development of farmer organisation
  – Market Access and Trade
  – Information systems and management
  – Development of strategic linkages/alliances
  – Representation and advocacy
  – Regional infrastructure development
  – Sustainable agriculture
  – Policy/Programme development, Implementation, Monitoring & Evaluation, Follow-up
CAPACITY STRENGTHENING OF FO’S

• SACAU- Capacity building of FO’s a key tenet of its mission and strategy
• NEPAD- capacity building of FO’s is one its cross-cutting priorities
• SADC- the establishment and strengthening of networks and dialogue is a priority area
• COMESA- weak and disjointed FO’s at national and regional levels, as well as lack of coordination and focus of activities of FO’s identified as key challenges
TWO KEY ISSUES FACING FO’S IN THE REGION

• Weak capacity among national FO’s to represent and service the needs of their members (i.e farmers)
• Inadequate/limited influence by farmers agric related matters at regional and international levels
UNDERLYING CAUSES

Reasons include:

• Limited financial resources
• Weak representation/governance and administration structures
• Limited access to information for informed decision making
• Limited technical and management know-how, skills and experience to develop and implement programs
• Proliferation of FO’s/Competition
• Limited capacity of SACAU to address regional and international issues
PRIORITY AREAS FOR SUPPORT

• Governance and administration
• Strategic planning and management
• Development of policy positions on key issues
• Policy dialogue, advocacy, lobbying, negotiating
• Membership and other data-bases
• Trade/market and other information (e.g. climate)
• Communication (internal & external)
• Project development and management
• Leadership development
• Technical and management skills
• Cooperation amongst FO’s in one country
• Financial sustainability of FO’s
• Sustainable farming, HIV/AIDS Malaria, Gender
CONCLUSIONS

• The priorities above determine the focus of capacity building support programs
• Several tiers of capacity building {local, national, regional (including SACAU)}
• Differences in capabilities of FO’s (the very weak and the very strong)
• Issues are both technical and organisational in nature
• Multi-faceted nature of issues/challenges require comprehensive approaches to CB
